Strawberry Plants

The following listed varieties of Strawberry Plants are Pot-grown; we are unable to supply Layer Plants during the Summer months.

All of our plants are strong and well rooted, being grown in two and one-half inch pots, and are shipped in the pots in which they are grown, thereby insuring safe shipment, the roots undisturbed, allowing them to be transplanted to the best advantage.

The varieties indicated by the letter "P" are the pistillate sorts, and should be planted among other Perfect-flowering kinds: this may be best effected by planting every other or every second row of the latter sort thereby allowing the pistillate varieties to become pollinated.

Pot-grown Strawberry Plants are usually ready for delivery after August 1st but sometimes later according to the season.

Strawberries when planted during August will produce a fine growth during late summer and early fall which will insure a good crop the following summer.

Pot-grown Strawberry Plants (From 2½ in. pots) per doz. \$0.50; per 100, \$3.00; 250, \$6.50; 500, \$12.50; per 1000, \$25.00.

Strawberry Plants in pots cannot be sent by mail.

Glen Mary

Autumn Bearing

THE AUTUMN. Unlike other varieties, this bears fruit continuously during the Summer and into the late Autumn, even up to frost. Being a pistillate variety, should be planted with the Pan-American. The price on the Autumn is \$2.00 per doz.; \$10.00 per 100.

PAN-AMERICAN. One of the newer varieties and Autumn bearing. This is a perfect plant and bears continuously from August until frost. Price 25c. each; \$2.50 per doz.; \$15.00 per 100.

Extra Early Varieties

EXCELSIOR. One of the best extra early varieties; vigorous, healthy grower; unusually productive for an early sort. The fruit is of round, conical form, glossy, dark red color.

SUCCESS. Although this is one of the earliest, it holds out well during the strawberry season; it is a little soft for shipping, but this fact proves its superiority for home use. The fruit is of globular form, bright scarlet, fine flavor.

TEXAS. A strong grower; has quantities of runners; a good shipper; fruit medium large, crimson, very productive.

Medium or Second Early

ABINGTON. A strong growing native variety of recent introduction. The fruit is of large size, bright red in color, very solid and of excellent flavor.

BRANDYWINE. Famous among commercial growers for its quality as a shipper. Color blood red; round; yields very large crops of finest quality berries.

CLYDE. A strong grower making rather short runners; extra large fruit of mild flavor; light crimson color.

Medium or Second Early — Continued.

GLEN MARY. One of the best strawberries for the home garden and nearby markets. Extra large and productive; twelve specimens will fill a quart; color dark, glossy crimson, fairly firm and of excellent quality.

GOLDEN GATE. A strong growing variety, bearing rich, crimson fruit without green tips, and quality equal to the best; seems to bloom early and late, making a good variety to pollinate.

HERITAGE. This is an excellent variety in every way, making a large number of runners. The berries are long in shape, and extremely attractive; extra large and of delicious flavor; a very heavy yielder; color crimson.

KLONDYKE. Of recent introduction, color dark red; conical and very long, having the long neck typical of the very sweet berry; large in size, deliciously sweet in flavor; extra heavy yielder; one of the best shippers.

MARK HANNA P. The berries are of exceedingly large size, attractive in color, and excellent quality; very prolific.

MARSHALL. As an exhibition berry and for home use it is the leader; it captures the prize wherever exhibited; although of great size the fruit is rarely ever misshapen. The color is a rich, glossy crimson that every one admires; the quality is excellent and it is a strong grower.

NEW YORK. The berries are large, of conical form, dark red color, and of remarkably sweet flavor; one of the best for home use.

PARSON'S BEAUTY. A strong grower, making an abundance of runners; fruit is large and mild in flavor, of conical shape, bright red color; heavy yielder.

SAMPLE P. A variety much used for market; is a heavy yielder of large berries, excellent flavor.

SENATOR DUNLAP. Is one of the universally popular varieties; famous as a shipper. Color dark red; top-shaped; fruit large, rich flavor; yields immense crops of high quality fruit.

Late to Very Late

BELMONT. Although one of the older varieties, it is considered by many to be the finest late berry; an excellent keeper.

CHESAPEAKE. The most productive of the late varieties. Fruit extra large and very smooth, color crimson to dark and of rich aromatic flavor.

COMMONWEALTH. This is the latest of all strawberries and should be in every home garden. Not only is this an extra large berry, but also very productive, solid and of deep rich color.

GANDY. An excellent late berry of uniform size and perfect in form; color bright crimson and very glossy; best results when grown on moist soil.

MINUTE MAN P. Is a vigorous grower, very productive, fruit of crimson color, excellent quality and continues to bear longer than most other berries.

Choice Flower Seeds — For Summer Planting

Biennials and Perennials sown from June to August bloom following season

Novelties and Collections

Sweet William, Double Salmon

Convolvulus Althaeoides Floribundus

Perennial Morning Glory

A very beautiful climbing plant, of which the trailing stems attain a height of five to seven feet.

The flowers are produced in great abundance, blooming continually until frost; of a soft, pink color, the blooms being erect and bell shaped.

Its special value wherever planted is to cover rock-work, banks, tree stumps, arbors and trellises.

This new variety, which succeeds well almost everywhere, prefers a rather light, well-drained soil.

Pkt. 20c.

SWEET WILLIAM Double Salmon

The Sweet William, which is so common to almost every one, needs but very little introduction, but a new shade of this popular flower must naturally be appreciated.

The flowers are of good size, of a rich salmon coloring, producing fine clusters of flower heads, and extremely double.

Plants make a very sturdy and robust growth, with long flower stems, while the foliage shows a beautiful deep green.

This is a particularly fine variety to add to the long list of Sweet Williams now in existence. Pkt. 20c.

Convolvulus althaeoides floribundus

SCHIZANTHUS — Hybridus Grandiflorus

Excellent for Winter Blooming

Violet Red with White Eye

The originator in selecting this new and novel color from his vast assortment of Schizanthus has succeeded in introducing a most pleasing shade and a very fascinating variety.

The blooms are very large, of a brilliant violet red of lighter or darker shading, each flower showing a large white eye, which is a peculiarity of the Schizanthus, finely veined.

Some of the flowers show a golden yellow margin, the white eye enriching the whole appearance.

The plants possess the general characteristics of the recent introductions, having a dwarf and compact growth, each plant growing very symmetrical and producing a profusion of delicate blooms. Pkt. 25c.

Suburban Garden Collections

Perennials As the demand is steadily increasing for the flowers which do not require planting each season, we have carefully prepared the following collections, which will, without doubt, give excellent satisfaction to those interested in this class of beautiful plants.

We advise planting the seeds of perennials as early as June and July, thereby enabling the grower to obtain much stronger plants which will become better established to withstand the Winter.

We include in the following collections such varieties as **Hollyhock, Columbine, Larkspur, Foxglove, Canterbury Bells** and the **Oriental Poppy**.

PANSIES

Our strains of this popular flower are imported from the most experienced foreign growers and are unsurpassed for size and form, beautiful markings, brilliancy of colors and shadings. Seed sown in May will flower during late Summer and Autumn. For early Spring flowering, sow in August and protect the young plants either in coldframes or with straw or boughs. Soil best suited should be light, well fertilized and requiring plenty of moisture.

BULBS FOR EARLY FORCING

*Planted in September can be Flowered for Christmas
Our Bulbs are all Selected, First Quality*

Allium

No charge for postage.

Neapolitanum. Large heads of pure white flowers; extensively forced by florists. 15c. per doz., \$1.00 per 100, \$7.00 per 1000.

Hyacinth — White Roman

Hyacinths, Early Roman

Add 8c. per dozen, postage.

This class of Hyacinths is almost indispensable to the florist in his Autumn and Winter cut-flower work, and to the amateur it is the most successful of all flowering bulbs. If planted early in September and gently forced, will bloom in November, or flowers may be retarded until Christmas by keeping in a cool place.

OUR FALL CATALOGUE

Containing a complete list of Hyacinths, Tulips, Narcissus and Miscellaneous Bulbs, Perennial Plants, Shrubs and Trees. SEND FOR ONE.

Polyanthus Narcissus

Paper White Grandiflora

The Fragrant Bunch-flowered Narcissus

Add 12c. per dozen, postage.

In our New England climate this class is not hardy and can be used for house culture only. Their easy culture should endear them to every flower lover. In southern states these bulbs are perfectly hardy, and we highly recommend them to be planted by the thousands.

THE LARGE-FLOWERED PAPER-WHITE NARCISSUS.

If grown in pots, eight weeks will produce the flowers. We especially recommend to grow this bulb in pebbles and water, after the fashion of the Chinese Sacred Lilies, as they are far superior to the latter. Twelve bulbs should be planted in an ordinary-sized dish. It is advisable to start the bulbs in a dark place for four or six days. Grow cool and give plenty of water.

Large bulbs. 30c. per doz., \$1.75 per 100, \$14.00 per 1000.
Mammoth bulbs. 40c. per doz., \$2.50 per 100, \$18.00 per 1000.

Pebbles for above. 10c. per qt., 35c. for 4 qts.

Fall and Winter-Blooming Crocuses

Hardy Crocuses, which will bloom outdoors in the North between November and March with no protection whatever. Most of them are from the Holy Land, and all should be planted as early as possible in the Autumn.

We heartily recommend their use by the thousands on Southern estates, especially Winter homes in the Carolinas and Georgia. The time of bloom depends chiefly upon the openness of the Winter.

Species of Colchicums

Add 20c. per dozen, postage.

Collection of New, Rare and Beautiful Paeonies

See the Varieties displayed in our show windows during the month of June

The Paeonies are among the noblest and most magnificent of our herbaceous plants. With the addition of superb newer varieties.

The colors have the greatest range, embracing white, flesh color, rose, pink, salmon, yellow, scarlet and crimson in lighter and darker shades.

They require very rich soil, are perfectly hardy, and in planting care should be taken to select a rich, sunny place. The tip of the crown should be 6 inches below the surface.

Time of Delivery. All roots can be delivered from early April until the end of May, and again from September on and until freezing time in the Fall.

Directions for Shipping. Paeony roots can only be shipped by express, purchaser paying transit.

Our list here only shows varieties. We have 300 varieties. If you do not find the variety wanted listed here, write us.

Fertilizer for Lawns and Gardens

BONE AND WOOD ASH FERTILIZER FOR LAWNS. The value of bone and wood ashes is appreciated by every one. Bone however is not a complete fertilizer, as it lacks potash. Ashes are not a complete fertilizer, as they lack both phosphate of lime and ammonia. The two combined, however, supplement each other and make a complete balanced fertilizer. \$2.00 per 100 lbs., \$25.00 per ton.

CANADA UNBLEACHED HARD WOOD ASHES. They give to the grass a rich, dark shade of green, and will destroy many of the insects that are injurious to grass roots. A superior lawn dressing. 100-lb. bags \$1.25, 200-lb. barrels \$2.25, per ton in barrels \$20.00, per ton in bags \$18.00. In carload lots, minimum weight 20 tons, \$16.00 per ton, in bulk; \$18.00 per ton in 100-lb. bags delivered at any station in Massachusetts, Vermont, New Hampshire, Rhode Island or Connecticut, or any station in Maine, except points on the Maine Central R. R.

LAWN AND GARDEN DRESSING. For lawns, grass lots, kitchen-gardens and flower-beds. This superior dressing is made from chemicals, and is so prepared that it acts gradually throughout the season, producing a luxuriant growth of grass of a rich green color. It is far superior to lumpy, strawy manure, which disfigures the lawn and gives off an offensive odor. It is nearly odorless, and is easily applied. 10-lb. bag for 1,000 sq. ft. 50c., 25-lb. bag for 2,500 sq. ft. \$1.00, 50-lb. bag for 5,000 sq. ft. \$1.75, 100-lb. bag for $\frac{1}{4}$ acre \$3.00, ton \$50.00.

FRESH GROUND BONE. It is practically raw ground bone, the only thing extracted from it being the grease, which is of no value as a fertilizer. After the grease is extracted, the bone is dried and ground in its pure state. 50 lbs. \$1.25, 100 lbs. \$2.00, ton \$35.00.

COMPRESSED AIR SPRAYERS

LOWELL SPRAYER. The best compressed air sprayer for florists' use in greenhouses. All of the tobacco extracts can be used to best advantage with this sprayer. It is both automatic and positive in its action. One charge is sufficient to expel its entire contents. Each sprayer is thoroughly tested with both air and water pressure before leaving our factory. Having convex heads, entire contents can be drained from machine, leaving it perfectly dry when not in use. Heads after being seamed and riveted are dipped into molten solder, making it absolutely air tight, and the strongest Air Pressure Sprayer made, standing five times the air pressure necessary to operate. Tree attachment, consisting of three feet of $\frac{3}{8}$ -in. 3-ply, C. I. Rubber Tubing with spray nozzle one foot long, for small tree and shrub spraying; funnel with brass wire strainer cloth for filling, and shoulder strap for carrying furnished with each machine, also attachment to spray the underside of leaves. Capacity of tank, three gallons. Galvanized steel, \$5.00 each, brass \$7.50 ea. Complete.

Lowell Sprayer

THE "AUTO-SPRAY" works automatically for six to fifteen minutes, according to the nozzle opening. Has a capacity of four gallons. Eight to twelve strokes of the plunger will compress the air and two pumpings will discharge the entire contents.

Three gallons of solution or one charge will easily cover one-half acre of potatoes or other similar crop. **Galvanized Iron Tank, with Auto-Pop Nozzle** \$5.00; **Brass Tank, with Auto-Pop Nozzle** \$7.25.

Auto-Spray No. 3B. For spraying large trees, whitewashing or painting. Galvanized iron tank holds 8 gals. Machine furnished complete with 8 feet 3-ply discharge hose, stopcock, 8 feet of iron extension pipe, Vermorel nozzle, \$14.00 Each

SHEEP MANURE

The best for making a Liquid Manure for additional fertilizing during late Summer and Fall.

PURE SHEEP MANURE "FISKE'S BRAND". This is a pure natural manure and the most nutritious food for plants. It is the best of all manures for mixing with the soil for greenhouse plants. It makes the richest, safest, and quickest liquid manure, rivaling guano without any deleterious effects. For flower and vegetable gardens, and as a top dressing for lawns, it is unequalled. We handle large quantities of sheep manure direct from the corrals in the West. It comes to us in the natural state and we have it ground here in Boston. We know that it is as pure as can be obtained. 5 lbs. 25c., 10 lbs. 40c., 100 lbs. \$2.50, ton \$40.00.

"WIZARD BRAND" PURE PULVERIZED SHEEP MANURE. We are sole distributors for Boston and vicinity of the above brand of sheep manure. Pure sheep manure is the best and strongest in fertilizing and enriching elements of all nature's fertilizers, containing, as it does, nitrogen, phosphoric acid, ammonia and potash in liberal proportions. It is three times stronger than cow manure. Sheep manure is excellent for lawns, railroad stations, golf greens, general garden, flower beds, house plants, trees, hothouses, public parks, fruits and all farm products. Lb. 10c., 5 lbs. 25c., 10 lbs. 40c., 25 lbs. 75c., 50 lbs. \$1.25, 100 lbs. \$2.00, ton (in 100-lb. bags), \$35.00, full large barrel \$4.00.

LAWN MOWERS

VICTORY BALL BEARING. While the Victory is especially adapted to cutting fine lawns, its long wheel base adapts it to going over lawns too rough for most mowers. Its compound triple gear permits of the maximum strength with the minimum weight. These gears are entirely enclosed so that no dirt or cut grass can get into the pinions and clog them. It has a 10 in. wheel, $5\frac{1}{2}$ in. reel, 4 blades, crucible steel, oil tempered; lower blade is also crucible steel, oil tempered. Of the many mowers of all makes that we repair during the year, this mower comes back with its working mechanism the cleanest. **Prices, 14 in., \$8.50; 16 in., \$9.50; 18 in., \$10.50; 20 in., \$11.50.**

FLYER. This gen'l of lawn mower construction is so built to give a ball bearing mower at a very low price, that we can conscientiously sell and guarantee. It is the strongest, lightest running mower of its class. Has a 9 in. wheel, $5\frac{1}{2}$ in. reel, 4 blades, crucible steel, oil tempered; lower blade is also crucible steel, oil tempered. **Prices, 14 in., \$5.00; 16 in., \$5.25; 18 in., \$5.75; 20 in., \$6.25.**

GOLF WONDER. Ball bearing. This mower will cut putting greens, golf courses and other smooth and fine lawns better than any other mower made; it was designed especially for that purpose; no wheels to tear up the sod in turning or to leave tracks. The weight of the front part of the machine is carried on a wooden roller, $6\frac{1}{2}$ in. in diameter, at the rear of the cutter bar. Reel 4 in. diameter, 7 knives, lower knife, Coes laid blade, glass hard. **Prices, 16 in., \$21.00; 18 in., \$22.50; 20 in., \$24.50.**

TOWNSEND'S LAWN FINISHER. For trimming and finishing lawns and borders. Quicker and easier than trimming by hand, producing equal results. Will cut within one quarter inch of buildings, fences and curbings, and especially adapted for narrow borders around flower beds, shrubbery and hedges. (Ask for circular.) $6\frac{3}{4}$ in. wheels, $5\frac{1}{2}$ in. reel, 3 blades, width of cut 5 in., crucible steel, tempered. **Price, \$4.50.**

APOLLO LAWN SWEEPER. The greater part of the beauty of a lawn is hidden by an accumulation of dead grass, stable manure, leaves, twigs and dirt, heretofore impossible to remove. The revolving brush of the Apollo Lawn Sweeper removes all these, and promotes the growth of turf and grass. **16 in. sweep, \$7.00; 20 in. sweep, \$8.00; 24 in. sweep, \$9.00; 28 in. sweep, \$10.00.**

GRASS CATCHER. The E. Z. Catcher will fit every size of mower and consists of a galvanized iron bottom with canvas sides and back. The 16 in. will fit all sizes from 12 to 16 in. 20 in. in all sizes from 18 to 22 in. **Price, \$1.50.**

PHILADELPHIA, STYLE K. Five blades, 10 in. wheel, $6\frac{1}{2}$ in. cylinder. Single Pinion, Geared on both sides. For all-round general purposes this is one of the best style mowers on the market. With its high wheels it runs light, and with five knives it cuts smooth and even, with the principles of construction so evenly balanced that it has the greatest amount of durability. **14 in., \$7.00; 16 in., \$7.75; 18 in., \$8.50; 20 in., \$9.25.** Philadelphia Grass Collector (extra) **14 in., \$1.60; 16 in., \$1.70; 18 in., \$1.80; 20 in., \$1.90.**

Apollo Lawn Sweeper

Townsend Triple Ratchet Horse Lawn Mower

Victory Ball Bearing

the machine is carried on a wooden roller, $6\frac{1}{2}$ in. in diameter, at the rear of the cutter bar. Reel 4 in. diameter, 7 knives, lower knife, Coes laid blade, glass hard.

PHILADELPHIA, STYLE E. 4 blades, 10 in. wheel, $6\frac{1}{2}$ in. cylinder, train of 3 gears, double wheel. One of the lightest draft mowers manufactured; made of iron and steel. It has one special point of excellence over other mowers of this style, which consists in removing the box caps to the cylinder cutter, and removing the cutter without disturbing the frame of the mower; it therefore has a solid frame, with little trouble in case of repairing same. **15 in., \$9.00; 17 in., \$10.00; 19 in., \$11.25; 21 in., \$12.50.** Philadelphia Grass Collector (extra) **15 in., \$1.70; 17 in., \$1.80; 19 in., \$1.90; 21 in., \$2.00.**

PHILADELPHIA, STYLE C. Four blades, $8\frac{1}{2}$ in. wheel, $5\frac{1}{4}$ in. cylinder, Single Pinion. Geared on both sides. This is a medium High Wheel Mower which is very popular, for the reason that it has $8\frac{1}{2}$ in. driving wheels and is so geared that with the additional height in wheels it does good work and runs lighter. **14 in., \$6.00; 16 in., \$6.75; 18 in., \$7.50; 20 in., \$8.25.** Philadelphia Grass Collector (extra) **14 in., \$1.60; 16 in., \$1.70; 18 in., \$1.80; 20 in., \$1.90.**

TOWNSEND HORSE LAWN MOWER. Its special features are: Triple rolls with triple pawls in each roll, making the most powerful and instantaneous driving mechanism ever put in a lawn mower. This feature maintains the motion of the blades even in turning sharp corners. A lever beside the driver enables him to cut any height from the ground and to easily and quickly raise the blades over stones or other obstructions without stopping the horse or leaving the seat. Large rolls 15 in. in diameter insure great power and ease of movement. **Prices, 30 in., \$68.00; 35 in., \$80.00; 38 in., \$90.00, f. o. b. factory**

LAWN MOWERS. Repairing. We employ only practical men to attend to this work, those who thoroughly understand their business, and we guarantee all machinery repaired by us to do satisfactory work.

HORSE LAWN BOOTS. For use on Golf Links, Tennis Courts, and Fine Lawns. Where care is exercised in ordering by size to fit the horse's feet, perfect satisfaction will be found. **Price, \$10.00 per set of four.**
